http://medlineplus.gov/
Patient-oriented online health information on over 800 topics. Click the green tab for Medicines, Drugs & Supplements or search by drug name or disease. Other topics include: Drug Safety, Drug Therapy, Over the Counter Medicines, Pain Relievers, and Herbs and Supplements.

Daily Med
http://dailymed.nlm.nih.gov/
Over 16,000 approved prescription drug labels submitted by the manufacturers. Includes descriptions, usage, warnings, and patient counseling information.

Dietary Supplements Labels Database
http://dietarysupplements.nlm.nih.gov/
Label ingredient information from over 5,000 brands of supplements. Includes manufacture claims and links to fact sheets, research findings and clinical studies.

LactMed
Database of drugs to which breastfeeding mothers may be exposed. Includes information on levels of substances in breast milk and infant blood, possible effects on nursing infants and on lactation, potential alternate drugs and links to breastfeeding resources.

TOXNET
Toxicology Data Network
Portal search of a collection of databases on hazardous chemicals, toxic releases, and environmental health. Drug related information may be found in:
- LactMed – Drugs and Lactation Database of drugs affecting breastfeeding mothers and their infants
- ChemIDplus – Chemical Identification/Dictionary providing structure, property and chemical toxicity searching
- TOXLINE – Toxicology Literature Online, citations from toxicological journals including PubMed journals
- DART – Developmental and Reproductive Toxicology with focused citations from toxicological journals including PubMed journals
- HSDB – Hazardous Substances Data Bank with reviewed biological and physical data including toxicity studies on animals and humans

All About Drugs @ NLM
The U.S. National Library of Medicine® (NLM) provides a rich variety of information on all type of drugs and on herbal supplements.

Portals – one-stop searching across multiple databases
- Drug Information Portal – searching across most NLM databases
- TOXNET – focusing on toxic chemicals

Labels Databases
- DailyMed – FDA approved drug labels
- Dietary Supplements Labels Database

Additional Drug Information Sources
- AIDSinfo – drugs and vaccines
- Clinical Trials – drugs in trials
- LactMed – drugs affecting lactating mothers and breastfed infants
- MedlinePlus – for patients and families
- PillboxBETA – for patients and families
- PubChem – chemical information
- PubMed – article citations

Developed and updated by NNLM staff. Funded in part or whole by NLM under contract No. NLM-N01-LM-6-3503. This brochure may be freely reproduced. http://nnlm.gov/training/resources/drugstri.pdf
Revised: November 2010

The National Network of Libraries of Medicine (NN/LM), an outreach program of NLM, provides assistance and training nationwide. To find a local library, please call 800-338-7657 or go to http://nnlm.gov/members
ClinicalTrials.gov
http://clinicaltrials.gov/
Registry of about 100,000 clinical trials conducted world-wide. Includes the trial's purpose, participant eligibility, location, and, for recently completed trials, study results. Includes links to PubMed citations.

NLM Drug Information Portal
http://druginfo.nlm.nih.gov/
Information on over 17,000 drugs from their entry in clinical trials through U.S. FDA approval and into the marketplace.

Search for drug by name (generic, brand or approved name) or by category (i.e. anesthetics, neurotoxins). Select By Name or By Category and click the Go button.

In addition to searching databases listed in this brochure, the Portal access:
- Drugs@FDA – U.S. Food and Drug Administration
- NIAID ChemDB – National Institute of Allergy and Infectious Diseases
- Vaccines – from FDA and Centers for Disease Control & Prevention
- Code of Federal Regulations – Drug Enforcement Administration

Drug Information Portal Resources
A wealth of links to additional and related databases. By Audience includes the public, health professionals, librarians, and students and educators. By Class includes prescription, over-the-counter, drugs of abuse and dietary supplements.

AIDSinfo
http://www.aidsinfo.nih.gov/
Federally-approved information on HIV/AIDS clinical research, treatment and prevention. Search a drug database for FDA-approved and for investigation drugs; find preventive and therapeutic vaccine; access updated treatment guidelines. Includes links to additional NIH resources.

PubChem
Biological activities and chemical structures database. In addition to detailed chemical information, use the Literature Keyword Mining Tool to identify additional information in PubMed citations for that drug.

PubMed.gov
http://pubmed.gov/
Search over 20 million scientific journal citations with additional resource links other NLM databases. MEDLINE is the indexed subset of PubMed. Search for drugs as a substance name or as a topic.
